

# California OES Weather Threat Briefing

Friday, May 7, 2021  
9:00 AM PDT

**Day 1 (Friday):** Locally elevated fire weather conditions expected this afternoon and evening across the southern California mountains with gusty winds and very dry conditions

National Weather Service

*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**05/07/21 - 05/13/21**

## **Friday - Thursday**

- Winds gusting up to 55 mph will occur this evening and overnight from the southern San Joaquin Valley and south to the US-Mexico border.
- Briefly cooler temperatures expected for most areas today, with readings warming back well above normal through the middle of next week. Widespread temperatures in the 90s to lower 100s are expected across the Central Valley and southern California deserts by Tuesday, Wednesday, and Thursday
- Several periods of critical fire weather conditions expected across the Sacramento Valley and nearby foothills Saturday through Monday with winds gusting 30-40 mph and very dry conditions
- Elsewhere, locally breezy weather will result in elevated fire weather conditions for the southern California mountains and southern Sierra this weekend and early next week
- No precipitation expected through late next week
